15. 6. 1996

Address

Nábřežná 93 / 5
940 02, Nové Zámky
Slovensko

ABOUT ME

I'm young, curious and passionate Full-Stack developer who likes to have a challenge, methodically and structurally approach different problems and then solve them. I've been always interested into tech-related stuff since my youth. I have built my first programs being 16 years old using Delphi or built a custom Wordpress page with different plugins. Currently I work in a Fin-Tech sphere on a Full-Stack project. I thrive to be better at what I do everyday, trying to figure out how to do it in better way while **still enjoying the challenge that comes with it.**

WORK EXPERIENCE

2023 - now	FULL STACK DEVELOPER CRIF - Slovak Credit Bureau, s.r.o.
2021 - 2022	MACHINE OPERATOR AGRO TAMI a.s., NITRA

TECH STACK

Angular JS, Typescript, HTML, Bootstrap, CSS

- pre-intermediate
- creating self-contained, reusable, and testable modules and components based on documentation from the customer
- creating custom, general use modules and components which extend the elements and modules of core AngularJS
- cooperating with the back-end infrastructure in the process of building the RESTful API

Java 11, Spring Boot, Maven, Junit, JPA

- pre-intermediate
- create endpoints which are responsible for different CRUD operations based on REST API
- designing & developing back-end components of web applications via Spring Boot
- sending back different kinds of responses based on structure of the application (JSON / XML)
- creating and running unit / integration tests
- debugging the software and testing applications

AWS, Jenkins, Kubernetes, Helm, Flyway, Docker

- beginner
- basic knowledge of how CI/CD works
- mostly proficient with K8s CLI, working with pods and their configuration and deployment

Git, GitBash, CLI, Versioning

- intermediate
- creating, modifying repositories, working with remote / local branches
- rebase, head, tag, merge conflict, merging, branching
