

MGR. HEČKO TOMÁŠ

JUNIOR FULL-STACK DEVELOPER

ABOUT ME

I was a machine operator in a milk plant prior to Green Fox Academy. I was seeking to change careers because I didn't see my needs and goals being met there in the future. I've always enjoyed working with computers in a wide range of ways (creating material, designing), as well as building them and learning how they operate. My enthusiasm in coding in general was strengthened by GFA. I enjoy problem-solving, critical thinking, and gaining knowledge of new technologies.
